EDUCATION

B.TECH INFORMATION TECHNOLOGY	2023-2027	CGC MOHALI CHANDIGARH	8.0 CGPA
CBSE (Class XII)	2023	DAV School , Jadupur	74%
CBSE (Class X)	2021	DAV Public School, Ratwar	83%

PROJECTS

DENTIVA-AI | [Github](#) | [Live Link](#) NOV 2025 – DEC 2025

- ✦ Engineered an AI-powered dental healthcare platform enabling seamless appointment scheduling, secure patient management, and intelligent **voice-assisted interactions**.
- ✦ Implemented authorization workflows using **Clerk** with secure email verification and **protected user sessions**.
- ✦ Architected a multi-step appointment booking system with real-time scheduling, automated email notifications, and centralized admin dashboard controls.
- ✦ Integrated Vapi AI voice assistant and Gemini AI capabilities to deliver interactive and personalized patient support experiences.
- ✦ Developed scalable **subscription and billing** workflows with automated **invoice generation** and dynamic **plan upgrades**.
- ✦ Optimized application responsiveness, data fetching, and overall performance using Next.js, Tailwind CSS, TanStack Query, and PostgreSQL.
- ✦ Tech Stack: Next.js, TypeScript, Tailwind CSS, Clerk, PostgreSQL, Prisma, Vapi AI, Gemini AI

FITNESS PLATFORM | [Github](#) | [Live Link](#) OCT 2025 – NOV 2025

- Built an AI-powered fitness platform generating personalized workout and diet plans using Gemini AI and Vapi voice assistant.
- Implemented secure authentication, responsive UI, and real-time data management using Clerk and Convex.
- Developed scalable client-server architecture with optimized performance and seamless cross-device compatibility.
- Tech Stack: Next.js, React.js, Tailwind CSS, Convex, Clerk, Gemini AI, Vapi AI

REAL-TIME INTERVIEW PLATFORM | [Github](#) | [Live Link](#) MAY -JUNE 2025

- Developed a real-time video interview and collaborative coding platform enabling seamless technical interview experiences.
- Integrated live video communication and synchronized multi-user code editor using Socket.IO and technologies.
- Implemented secure authentication, responsive UI, and scalable real-time interaction workflows for remote collaboration.
- Tech Stack: MERN Stack, Socket.IO, React.js, Node.js, Express.js, MongoDB

SKILLS

- Programming Languages - C | C++ | JavaScript
- Libraries & Frameworks - React.js | Node.js | Express.js | Tailwind | Next.js | TypeScript | Tailwind CSS
- Database - MongoDB | Convex | Firebase | SQL | Neon
- Other Skills - Data Structures and Algorithms | Web Development | OOPS | Operating System
- Platforms and Tools - Vercel | Git/Github | Visual Studio Code | Netlify | Clerk | Code-Rabbit | Render | Railway
- Soft Skills - Communication | Problem-Solving | Adaptability

ACHIEVEMENTS

- Solved 500+ Data Structures and Algorithms problems of varying difficulty across LeetCode, GeeksForGeeks.
- Maintained active GitHub profile with multiple deployed full-stack and AI-integrated projects.
- **Smart India Hackathon** (SIH) Participant
Collaborated in project development, technical discussions, and presentation delivery during hackathon competitions.
- Consistently practiced competitive programming and advanced problem-solving across Easy, Medium, and Hard difficulty levels.
