OBJECTIVE

Motivated B.Tech Information Technology student (4th year, CGC Mohali) seeking a full-stack developer internship or fresher role. Experienced in building and deploying AI-integrated web applications using Next.js, React, Node.js, and TypeScript, with 500+ DSA problems solved on LeetCode and GeeksForGeeks.

EDUCATION

B.Tech – Information Technology	2023 – 2027
CGC Mohali, Chandigarh	CGPA: 8.0
CBSE Class XII – DAV School, Jadupur	2023 74%
CBSE Class X – DAV Public School, Ratwar	2021 83%

PROJECTS

Dentiva-AI – Dental Healthcare Platform [GitHub](#) | [Live](#) Nov 2025 – Dec 2025

- Built an AI-powered dental healthcare platform with appointment scheduling, patient management, and voice-assisted interactions for 100+ potential users.
- Implemented multi-step booking system with real-time scheduling, automated email notifications, and a centralized admin dashboard.
- Integrated Vapi AI voice assistant and Gemini AI for personalized patient support and interactive query resolution.
- Developed subscription and billing workflows with automated invoice generation, reducing manual billing effort by ~80%.
- Implemented Clerk-based auth with email verification, protected sessions, and role-based access control.

Tech Stack: Next.js, TypeScript, Tailwind CSS, Clerk, PostgreSQL, Prisma, TanStack Query, Vapi AI, Gemini AI

AI Fitness Platform [GitHub](#) | [Live](#) Oct 2025 – Nov 2025

- Built an AI-powered fitness platform generating personalized workout and diet plans using Gemini AI and Vapi voice assistant.
- Implemented secure authentication with Clerk and real-time data sync using Convex, supporting cross-device compatibility.
- Designed scalable client-server architecture achieving sub-2s page loads across all device types.

Tech Stack: Next.js, React.js, Tailwind CSS, Convex, Clerk, Gemini AI, Vapi AI

Real-Time Interview Platform [GitHub](#) | [Live](#) May – Jun 2025

- Developed a real-time video interview platform with collaborative code editor supporting simultaneous multi-user sessions.
- Integrated Socket.IO for live video communication and synchronized code editing with sub-100ms latency.
- Implemented secure authentication scalable real-time workflows enabling remote technical interviews for teams.

Tech Stack: MERN Stack, Socket.IO, React.js, Node.js, Express.js, MongoDB

TECHNICAL SKILLS

Languages: C, C++, JavaScript, TypeScript

Frameworks & Libraries: React.js, Next.js, Node.js, Express.js, Tailwind CSS

Databases: MongoDB, PostgreSQL, Firebase, Convex, Neon (SQL)

AI & Integrations: Gemini AI, Vapi AI, Prisma ORM, Clerk Auth

Tools & Platforms: Git, GitHub, Vercel, Netlify, Render, Railway, VS Code, Code-Rabbit

Core CS: Data Structures & Algorithms, OOP, Operating Systems, Web Development

ACHIEVEMENTS & ACTIVITIES

- Solved 500+ DSA problems across LeetCode and GeeksForGeeks spanning Easy, Medium, Hard difficult levels.
- Smart India Hackathon (SIH) participant — collaborated on project development, technical discussions, and live presentation delivery.
- Maintained active GitHub profile with 3+ fully deployed, AI-integrated full-stack projects with live production links.
